DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 12-18, 20-24 are rejected under 35 U.S.C. 102(b) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over Hatsuda'076 substantially for the reasons of record.

The amendments and remarks filled by applicants on 11/2/09 have been fully considered. Arguments have not been persuasive. The examiner submits that changes to the claims have included process conditions. However, claims relate to the article. There is no evidence on the record that the claimed article would have a different structure than the prior art article.

3. Newly submitted claims 29-30 are directed to an invention that is independent or distinct from the invention originally claimed for the following reasons: Claims 29-30 are directed to a method claims that require further search and consideration. Previous process claims related to article claims.

Art Unit: 1794

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claims 29-30 are withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.
